

## Chair don't care

"hey, no fair," said little bear.

"What is, where...?" said ole gray mare.

Over there...

he took my chair..

I say no fair...

Why not share?

Cause chair don't care...

Who's butt sits where...

Chair don't care...

If he sits over there...

Or anywhere...

It's all fair.

"But I care, and I say no fair."

It's best to share, and not to care...

Whose butt sits there...

if you sit here...

and he sits there...

or anywhere...

just like a chair...

don't care...

and don't say, 'no fair'.

"Ok mare," said little bear.

It's best to share...

So I will dare...

To sit right here...

While he sits there.

And where's the hair on a pear?

Nowhere... mÓnfràir.
